The UCF Report

News and Announcements for the Faculty and Staff of the University of Central Florida

Knight Notes

Do you have a little time that you could donate to a worthy cause? Two local organizations are in need of volunteer help. Channel 24 is seeking helpers for pre-auction work to prepare for their Auction '80 fundraiser. Call Mary Scott at 273-2300. And Spouse Abuse, Inc., a shelter for victims of domestic violence, is in need of volunteers who enjoy helping others. If you can help, call the volunteer coordinator through the "WE CARE" hotline, 628-1227.

We hear a lot about energy these days—the shortage of it, the conservation of it, the cost of it, and the finding more of it. UCF is fortunate to have an "extension cord" linking campus with the Florida Solar Energy Center, home for a group of dedicated researchers who definitely are in the know about energy. The staff of FSEC will share their "current" knowledge on the subject in a periodic column, "About Energy." It starts today on page 3.

Faculty members—if you haven't already done so, mark your calendars for tomorrow's Faculty Assembly. It begins at 4 p.m. in the Engineering Auditorium.

Next time you're in the vicinity, stop by the Art Gallery in HFA 305. On exhibit are recent works by eight members of the UCF Art Department faculty. The gallery is open 8:30 a.m. to 4:30 p.m. Monday through Friday.

United Way campaign kicks off

The 1980 United Way campaign is officially under way. Campaign coordinator Tom Harrow (Education) held a kick-off meeting last week to brief campus-wide representatives on this year's campaign. Helping the University reach this year's goal of \$13,500 will be Virginia Barr-Johnson (Education), Thomas Phillips (Business Administration), James Beck (Engineering), Marilyn Kangelos (Health), Carol Bledsoe (Undergraduate Studies), Peggy Smith (Physical Plant), Richard Scott (Auxiliary Services), Jacqueline Wood (Purchasing, Finance and Accounting), Ron Nebgen (Personnel), Etta Jean Smith (Academic Affairs), Anne Broughton (Student Affairs), Richard Harden (South Orlando Campus), Harold Green (Daytona Beach Campus), James Beadle (Brevard Campus), Rusty Okoniewski (Graduate Studies and Research), and Patricia Corcoran (Extended Studies). Representatives will soon be named for the Library, College of Arts and Sciences, and Florida Solar Energy Center.

Meet the candidates

Staff members took advantage of the opportunity to meet and question three candidates for state legislative offices during a Monday luncheon seminar sponsored by the Staff Council. At the podium, Alan Fickett, assistant to the president, introduces, from left, Art Grindle and John Vogt, Republican and Democratic candidates respectively in the Senate District 17 race; and Bobby Brantley, Republican incumbent for the House District 34 seat. The second in the series of four luncheon meetings is scheduled for 12:15 today in the University Dining Room. On hand will be Senate District 15 contenders, Toni Jennings (Republican) and Bill Fulford (Democrat). Also on the program will be House District 38 contestants Bruce McEwan (Republican) and Bob Wattles (Democrat). Future legislative luncheon forums are scheduled Oct. 8 and Oct. 29.

Official Memoranda

To: All Faculty
From: President Colbourn
Subject: 1980-81 Salary Equity Study for Ranked Faculty

In accordance with Chancellor's Memorandum CM-79-02 (2) (Revised) of Sept. 8, 1980, and pursuant to Section 240.247, Florida Statutes [formerly Section 241.735(1)], each state university is required to make an annual salary study for the purpose of eliminating discrimination in salaries based on sex for ranked female faculty members. For purposes of identification, ranked female faculty in the following classifications are included:

9001-9004, 9006-9008, 9016-9030, 9040-9049, 9060-9075, 9080-9095, 9100-9109, 9111-9114, 9116-9119, 9127-9133, and 9167-9170.

Any ranked female faculty in one of the above classifications at UCF who has reason to believe that the level of her salary is inequitable due to sex discrimination, should notify Vice President Leslie Ellis by Oct. 27, 1980.

To: Administrative Council Members
From: Joyce A. Clampitt, University business manager
Subject: Appointment of New Building Manager

Harry W. Smith, director of Theatre, has been appointed the new building manager for the Science Auditorium, Building No. 6.

To: All Departments
From: G.C. Horton, director of Purchasing
Subject: Silver Recovery Service

This is to advise all departments that use products having silver recovery value of a new State contract covering Silver Recovery Service. The contract includes X-ray film and fixer solution. Should you determine that your operation has sufficient silver material to warrant the use of a recovery service, please contact Ralph Kornrumpf in Purchasing, x2661, for details concerning use of the State contract.

Small Business Institute, SCORE sign 'model' pact

In a move toward providing added service to their clients, key officials from UCF's Small Business Development Institute and from SCORE (Service Corps of Retired Executives) recently sealed an agreement which may serve as a model for SCORE chapters and SBDIs nationally.

The joint understanding outlines specific ways in which the two local organizations will pool resources for direct client counseling, sponsorship of workshops and training programs, and informational exchanges and referrals.

It was stressed that the UCF

Offices extend operating hours

In order to accommodate the increased number of students on campus for evening classes, two offices have expanded hours to include the four-hour block of time following normal office hours.

Student veterans who are unable to come to campus during the day can check in with the Office of Veterans' Certification, ADM 225, now open until 9 p.m. Monday through Thursday.

Open the same hours, the Evening Student Services Office, ADM 282, will provide assistance in the areas of veterans affairs and veterans' certification, special services, including handicapped student services and tutorial assistance, financial aid, placement, international student services, and personal counseling. The office will also serve as a referral resource to other campus offices.

Center and the Orlando chapter of SCORE will maintain separate identities in their efforts to serve small business on a confidential, no charge basis. The "unique wisdom and business experience of SCORE members combined with the extensive research, scientific and computer programming, and data processing capabilities of UCF are mutually supporting factors that benefit the small business..." an SBDI official noted.

On hand to sign the agreement were Ronald Rubin, director of UCF's Small Business Development Institute, and Ray Fugit, chairman of the Orlando chapter of SCORE. Others present for the occasion were Douglas McAllister, district director of the Small Business Administration; John Galm, district SCORE representative; and Allan Cowart, state coordinator of the Small Business Development Institute program.

Energy dollars going out window?

How to get the most from windows in cooling, heating, ventilating, and lighting is the subject of a new energy note, "Window Treatment For Energy Conservation," published by the Florida Solar Energy Center.

The four-page pamphlet describes many kinds of window shading devices and films and offers tips on energy-efficient window construction. It is available free of charge from: Florida Solar Energy Center, Public Information Office, 300 State Road 401, Cape Canaveral, FL 32920.

Film Clips

The following is a list of preview prints that can be viewed in Audio-Visual Services until noon on the date indicated at the end of each description. For further information call x2574.

The Neglected (30 min-b/w)...

This film is on families with neglected children who are protected by community authorities. It shows different methods which can change these situations and improve the family relationships. The demonstration of Protective Services is shown dealing with the relationship between the supervisor and caseworker. 10/03.

Free To Choose (15 min-color)...

The introduction of the film deals with women and their roles in the mid-1800s. This era is compared to today's breakdown of traditional roles for women. Following the introduction, various people tell about their work/lifestyles in today's society. In summary, the film relates the idea that both sexes have an equal chance for skilled jobs and that stereotyped roles of the past have changed. 10/05.

Germany: The Road of Return (30 min-color)...

The film depicts Germany's recovery after World War II. Following a brief introduction to the First Reich and the Second Reich, Hitler's Third Reich, which left Germany in ruins, is shown. The country is then divided and alliance with Russia is broken, which changes policies and lifestyles. Europe then goes through a rebuilding process

which brings with it new leadership and policy. 10/05.

The Witness (14 min-color)...

This film describes the story of Charles, a high school student who collides with a purse snatcher who had just assaulted an elderly woman. The boys attend the same school and the assaulter is known as one of the toughest kids in school. Should Charles relate information to the police or remain quiet? The question is left for the audience to decide. 10/05.

Be a good scout and attend meeting

Service with the Boy Scouts involves more than just camping with local troops. Men and women are also needed to serve on the district level—in finance, unit visitation, planning, and training. All members of the UCF community are invited to a meeting on Oct. '8 to learn about the opportunities for service.

The one-hour meeting, slated to begin at 2 p.m. in the Third Floor Board Room of the Administration Building, will feature a talk on the scouting program by Ray Boyd, Cypress District executive, Central Florida Council of Boy Scouts. Joining him on the program will be Bill Walker, a local attorney, and Steve Shackelford, a Southern Bell executive, both volunteer leaders in scouting.

For further information, call Richard Adicks, x2212.

Q? A! Q? A! Q? A!

I'd like to know.....

What's the plan for getting new photo ID's for faculty and staff since students are getting their cards?

Dick Scott, director of Auxiliary Services, tells us that no definite date has been established as yet, but faculty and staff ID pictures will be taken and cards issued this quarter. A schedule for taking ID pictures will be printed in The UCF Report in the next month or so---keep watching!

Is there any special reason that the colors were switched on the new student ID cards? (Graduate cards were red and undergraduate cards, blue.)

Scott said there was "nothing magical" about the choice of background color. They found the red background to be somewhat clearer and since undergraduates far outnumber graduate students, red was selected as the background for undergraduate cards. The faculty/staff cards will have a different color---possibly gold.

I don't know who my Staff Council representative is. How do I find out?

Mary Tice, Staff Council chairman, says that Personnel keeps an updated list of council members, or you can call Mary at x2827 and she'll give you the information.

I'm a staff member. Can I send my kids to the Creative School for Children?

Dolores Burghard, school director, tells us that children of students, faculty, and staff members are all eligible for the school. Children of UCF students have first priority, with faculty and staff children eligible on a space-available basis. Children must be at least two years old and toilet trained. If you have any questions, call Dolores at x2726.

If I don't use my personal holiday by Dec. 31, do I lose it?

We asked Ken Wartell (Personnel) about the new personal holiday and he said you will not lose it if you don't take it by the end of the year. As are all other state offices and institutions, the University is on a fiscal calendar from July 1 to June 30. So you will need to use your holiday by the end of the fiscal year (June 30, 1981) or lose it.

About energy

By Florida Solar Energy Center

Focal point of the state's efforts to promote and expedite utilization of solar energy is the Florida Solar Energy Center (FSEC) at Cape Canaveral, a part of the State University System. UCF provides administrative support services to the center.

The most recent addition at FSEC is a three-bedroom, two-bath experimental research house powered by 5,000 watts of photovoltaic cells (solar cells) on its south roof, which converts sunlight directly to electricity. One of the first of its kind in the nation, the house's lighting, appliances, water heater and air conditioner

will be pre-programmed to automatically turn on and off to simulate typical family usage, and data on their operation will be studied.

Long-term experiments will relate to what some energy experts foresee by the end of the '80s—cell-powered houses tied in with the local utility grid, the utility providing electrical backup when there is insufficient sunshine, and the homeowner "selling" any surplus sun-born electricity to the utility.

Much of FSEC's research and development activity takes place at its solar energy systems laboratory, where tests are conducted on performance of various types of solar energy systems, heat

transfer and utilization, heat storage, and system controllers.

There is also a facility equipped with six sun-tracking stands capable of simultaneously testing six flat-plate solar energy collectors, the type most often used for solar hot water heaters. Swimming pool heat collectors are tested here also. In 1980 it became mandatory that solar devices made or sold in Florida be certified by FSEC.

Workshops are an important part of the educational program, notably one on installation of solar hot water heaters and pool heaters, which is directed to the solar industry, builders and building inspectors.

Short courses also have been

developed in the areas of financing solar systems, for lending institutions, insurance people and appraisers; education, primarily at the community college and vocational education levels; and passive design, which involves little or no mechanical assistance for heating and cooling, directed to architects, engineers and designers.

Available FSEC publications, both technical and non-technical, address solar water heating for homes and pools, passive design, solar system sizing, and other subjects. A newsletter is published quarterly. FSEC's library, with several thousand books and documents on energy, is open weekdays to the public from 8:30 a.m. to 4:30 p.m.

New Council of Advisors members honored

Eight community leaders, recently named to the Council of Advisors, were honored at an orientation dinner, hosted by President Colbourn. The 25-member group advises the president and University administrators on major issues affecting UCF. J. Charles Gray, left, is chairman of this year's council. Standing with Gray are, left to right, James B. Greene (James B. Greene & Associates), William C. Schwartz (president, International Laser Systems, Inc.), Robert J. Whalen (vice president and general manager, Martin Marietta Aerospace), Thelma Dudley (distinguished educator), Harley Hoffman (manager, customer and public relations, General Electric Co.), and Jack C. Davis (vice president, Harris Corp.). Unable to attend the meeting were new members John E. Evans (WESH-TV) and former State Senator Kenneth A. Plante.

Guest Commentary

People often ask us why The UCF Report is so serious all the time. We usually tell them that's our job—we give the official news, memoranda, stories, etc. And a lot of that stuff is serious. But that doesn't stop them from continuing to ask why we don't have a lighter feature—perhaps a little humor, or satire, or just plain easy reading. In answer to all of those questions, we're starting a new feature today. This column will be made available to faculty and staff members who want to share some thought, idea, insight, or general comment with the rest of the campus community. We invite your essays, and hope to publish as much of your material as possible in the coming months.

Of course, the problem is how do we start. Most of the people in our office are pretty dull to begin with, and not much of what they write is funny (except a lot of the serious stuff which isn't supposed to be funny). We came across the "Kent State University Weekly," a pretty good faculty and staff publication at Kent State, and decided to borrow this column by Robert McCoy which appeared in their latest issue. Now, since we learned that the author is a vice president at KSU, we thought just borrowing his column wasn't enough, so we had President Colbourn call to obtain his permission to use this column.

We'll start checking our mailbox (ADM 395-K) next week to see all the essays we get from our own people for future issues. But in the meantime, here's an entertaining feature we think you'll enjoy reading.

Our David, 10, played a full season of "good eye, nice try" baseball this summer and brought home our family's first championship trophy at the end of an undefeated season. David's team, sponsored by Consolidated Mold, was somehow never nicknamed, but when they first gathered to practice as one of the 14 teams in the KABC "H" League, I was

convinced that the "H" stood for "hopeless." David was a part-time (both in and out of the lineup) centerfielder, placed at the bottom of the batting order because of his dream-like swing, precipitated usually by the sound of the ball hitting the backstop.

Even so, I would have to say that his skills were average. The first ball that came to his attention in centerfield, where he stood, feet crossed, glove under his arm, peering at a bee in the clover, was thrown there by one of the infielders trying for a force-out at second base. It was then that I learned why boys with less-developed skills were assigned center field—the right and left fielders can back them up. In one of the practice games I saw one of our slower boys almost nipped at the plate by a ball that went from 7 to 8 to 9 to 5 to 6 covering, because the catcher had had to go into the woods to relieve himself.

Still, somehow, the boys' marvelously patient and caring coaches, Tom Doerfler and Gary Roberts, encouraged them to victory after victory. "Good eye, Tommy," they would call, when Tommy wouldn't swing at a pitch five feet over his head. "Nice try, Eric," they'd cheer, when he'd start running when the ball was hit instead of after it had landed.

Slowly, surely, David improved under their instruction. He mastered spitting first, then

sliding—into first base, where his "good eye" had earned him a walk.

Finally, he got his hits—both of them, in the same game, witnessed by his grandfather and earning a mention in the paper. Later, Coach Doerfler told us how he had managed this miracle.

During practice he had urged David to concentrate on the task before him, assuring him that he could become a baseball player if only he made up his mind that he really wanted to.

David replied, "Oh, I don't want to be a baseball player. I want to be an actor. I'm only doing this for the exercise."

When David came to bat on the occasion of his first hit, the Coach called time and met him half-way between third and home. He bent over, privately, his arm around David's shoulder, talking to him intently. David listened, nodded, and stepped into the batter's box, where he hit the first pitch for a clean single.

The instruction? The coach said, "David, forget all I've told you up to now. Just go up there and act like you're going to hit it."

His "Oscar" is topped by a baseball statuette, but we are all just as proud. It was a great performance; it was a hit.

A historical note

Concentration and orchestration. The brass section works on togetherness.

With flags at rest, members of the flag corps present a solemn salute.

With instruments glittering in the morning sun, charter members of the Knight band practice getting off on the right foot. Or is that the left foot?

Their first appearance. The Marching Knights.

UCF's Marching Knights made history Saturday at the Millsaps football game in the Tangerine Bowl. The members, decked out in a "uniform" of blue jeans and white shirts, performed the national anthem and the UCF alma mater before the evening with rousing renditions from the state capital.

Band Director Jerry Gardner feels this initial performance made a strong impression on the crowd. The fans had heard the band, but they were surprised when we actually showed up.

Gardner regrets that a number of students were stymied by schedule conflicts. Of those who could attend, he proudly rates them "a great bunch of kids."

The band will be on hand again for this Saturday night. "standard marching band show routines" for a homecoming game will mark the band's debut.

The scenes on these pages give some idea of what to expect from the big T-Bowl debut.

Sticks aflutter, the drum line of the Marching Knights.

Knights take the field prior to Saturday night's game.

Band Director Jerry Gardner utilizes a bullhorn to instruct his troops.

Poised in line, UCF musicians wait for instructions to play and march, hopefully at the same time.

University welcomes new staff members

We welcome the following new faculty and staff members to the University community.

Faculty

Therlene B. Boyett (visiting instructor, Mathematics and Statistics) holds BA and MS degrees from West Texas State University. A resident of Kissimmee, she formerly taught at Kansas Newman College and Wichita State University, both in Wichita, Kan. and at Lamar University in Beaumont, Tex. The Leedey, Okla., native is a member of the League of Women Voters and enjoys bridge and gardening.

Luther F. Carter (assistant professor, Public Service Administration) is from Columbia, S.C. A former assistant professor at Western Kentucky University, he received his BA from UCF and his MPA and PhD from the University of South Carolina. He and his wife, Teri, and three-year-old son live in Orlando.

Robert M. Cosenza (assistant professor, Marketing) comes to UCF from Memphis State University. He also taught at the University of Kentucky from which he received his DBA. His MBA was earned at Bernard Baruch College/CUNY. A native of Belmar, N.J., he enjoys playing the guitar and motorcycling. He lives in Fern Park.

Anna C. Farina (instructor, Music), a resident of Winter Park, attended Florida State University, received her bachelor's degree from Jacksonville University, and

her master's from UCF, where she served as a member of the adjunct faculty. Also a language teacher with Adult Education, she lists plants, swimming, sewing, cooking, and family activities as hobbies. President of District V, Florida State Music Teachers Association, and the Central Florida Music Teachers Association, she is a member of various musical fraternities.

Judith L. Gersting (associate professor, Computer Science) comes to UCF from Indianapolis, Ind., where she formerly was on the faculty of Indiana University-Purdue University at Indianapolis. She received her BS from Stetson University and her MA and PhD from Arizona State University. She lives in Maitland with her husband, John, and two sons. Her hobbies include cooking and sewing.

Carlton N. Hart (instructor, Computer Science) earned a BA degree from the University of South Florida and a master's degree from the University of Miami. A native of Lakeland, he formerly taught at the University of South Florida and Florida Southern College. He lives in Orlando.

Mary Osenburg (visiting assistant professor, Sociology) formerly was employed at Morgan State University, Baltimore, Md., her hometown. She holds a bachelor's degree from Morgan State and an MSW from Catholic University of America in Washington, D.C. Interested in health and fitness, piano, cooking,

and writing, she has served as a consultant to various youth programs in delinquency diversion and prevention. She has a son and a daughter and lives in Orlando.

Steven Powell (visiting assistant professor, Music) was formerly a teacher in a high school in Indiana. A resident of Orlando, he received a bachelor's degree from the University of Michigan and a master's degree from Indiana University. He is a native of Oak Park, Mich.

Robert H. Rivers (instructor, Art) comes to UCF from the faculty of the University of Wisconsin-Superior. The Guntersville, Ala., native earned a bachelor's degree from Auburn University and a master's degree from the University of Georgia. He lives in Geneva.

Ron Smith (assistant professor, Communication) is from Tipton, Ind., and received his bachelor's degree from Indiana State University. He holds two master's degrees from Ball State University. He and his wife, Kay, live in Winter Park.

Susan B. Spain (provisional instructor, Industrial Engineering) received her BSE from UCF where she worked as a lab assistant in the College of Engineering's computer lab. She and her husband, Leslie, live in Orlando. Her hobbies include embroidery, macrame, and working with computers.

James L. Swofford (visiting instructor, Economics) of Orlando received his BA from the University of Richmond and is working on an advanced degree at the University of Florida. He was formerly employed at Troy State University.

Staff

Melvon L. Ankeny (associate librarian, Library) is a resident of Winter Park. Formerly with the Finger Lakes Library System in Ithaca, N.Y., he holds a bachelor's degree from the University of Montana and a master's from Syracuse University. His hobbies are music and theater.

Vera Bersford-May (clerk-typist III, Computer Science), originally from Chicago, lists ballroom dancing and free-lance writing as hobbies. She was formerly

employed by G.D. Searle & Co., Skokie, Ill., and was secretary to Don McNeil, host of the "Breakfast Club" radio program. She and her husband, Peter, residents of Winter Springs, have four sons and a daughter.

Donald Brush (custodian, Building Services) was self-employed before joining the UCF staff. An Orlando native, he has two daughters and a son.

Jeremiah Dixon Sr. (accountant III, Finance and Accounting) earned a BS degree from the University of Maryland. Formerly employed at the National Bureau of Standards, he lists tennis, bowling, and coaching Little League sports as hobbies. A native of Philadelphia, Pa., he lives in Orlando with his wife, Johnnie. They have two children.

Janice A. Haskett (clerk II, Police Department) is a native of Winter Park. She earned an AA degree from Seminole Community College and attended the University of Florida.

Margaret Hogue (associate librarian, Library), originally from Jacksonville, now lives with her husband, Dennis, in Orlando. A graduate of the University of South Florida and Florida State University with a BA and an MLS respectively, she formerly was employed by Data Phase Systems, Inc., Kansas City, Mo. Sewing and sailing are her hobbies.

Thomas Jefferson (custodian, Building Services) returns to the staff, having previously worked at UCF for five years. A former employee of Nelson Company and Jackson Heights Middle School, both in Oviedo, he is a native of Albany, Ga. He and his wife, Geneva, live in Oviedo. They have one son.

Charles Loesner (audio-visual technician, Instructional Resources) earned a BS degree from Southern Illinois University. A native of Geneseo, Ill., he was formerly employed at Augustana College, Rock Island, Ill. His hobbies include art and music. He lives in Orlando.

James Mauk (audio-visual technician, Instructional Resources) formerly was employed by R.P. Cook & Associates. A graduate of Brevard Community College and UCF, the Rockledge native lives in Oviedo. Among his hobbies are gymnastics, tennis, and weight lifting.

Betty Sutherland (custodian, Building Services) is a native of Alexandria, Va. She lives in Orlando and has three children.

Sandra Ward (clerk-typist III, Education), formerly attended and was employed by Montgomery Community College, Rockville, Md. A member of Orlando's Camerata Opera Chorus and the Messiah Choral Society, she lives in Apopka with her son. Her hometown is Washington, D.C.

Jeanne T. Weeks (secretary IV, Arts & Sciences) is a resident of Casselberry. She and her husband, Barton, have two sons.

James Wilson (custodian, Building Services) formerly was employed by James Watkins Construction. A native of Miami, he lives in Orlando with his wife, Denise.

Grant Opportunities

For further information on the programs listed contact Judy Wilkerson, ADM 243, x2671.

Deadlines, when known, are indicated after program title.

Agency	Program
NSF	Comprehensive Assistance to Undergraduate Science Education: CAUSE awards are intended to support integrated, carefully planned projects to improve an institution's undergraduate science education programs. "Science" applies to the biological, engineering, mathematical, physical, and social sciences; interdisciplinary areas such as geochemistry, earth sciences, etc.; and the history and philosophy of science, and technician/technology training. 11/7
	Graduate Fellowships: for master's and doctoral degree candidates. 11/26
	Postdoctoral Fellowships in Science. 11/3
	Minority Graduate Fellowships: for minority master's degree students. 11/26
CIES	Visiting Fulbright Professors Program for Colleges and Universities: for bringing scholars from South and Central America and the Caribbean to the U.S. 10/31
Rutgers U.	S & H Lectureship Program in Public Affairs and Social Science. 2/15
Rockefeller Fdn.	International Relations Fellowships Program: Fellowships in international security, international economic relations, and the world energy situation. 11/1
DOT	Urban Transportation Research and Professional Training: emphasizes urban transportation analysis, planning, engineering, and operations. 12/1
NIA	Social and Behavioral Aging Research. 11/1
NIOSH	Occupational Safety Research/Demonstration. 11/3
NSF	Pre-College Science Teacher Development. 11/15

Seminar to teach 'grantsmanship'

The mysteries of grantsmanship, how to identify grant opportunities and how to write proposals, will be the subject of a 3-day seminar Oct. 15-17, conducted by the College of Extended Studies. The course will explore the ways non-profit organizations can take advantage of financial opportunity through grants.

Edward D. Leary, educator and author of numerous publications in grantsmanship, will direct the seminar.

Tuition for the three days, which includes a 300-page "how to" manual and lunches, is \$250. For registration or further information, call x2123.

Knight teams prime for weekend action

By Cagey Knight

The Golden Bears of Miles College are the next team set to invade the Tangerine Bowl to face the Fighting Knights, completing a four-game home stand which opened UCF's second season.

After two road trips and an open date, the Knights return to their home field on Nov. 1 to battle Catawba College.

Miles College, this week's

Computer personnel plan two-day seminar

Computer specialists from around the state will spend this Thursday and Friday on campus in a combination seminar and organizational meeting for users of the VAX-11/780, a large new mini-computer that adapts to a variety of applications.

The Computer Science Department has applied to Digital Equipment Corporation for status as a VAX Local Users Group. Representatives from Digital and members of the computer science faculty will join in presentations during the two-day meeting.

Terry J. Frederick, department chairman, indicated the meeting will be the first of its kind in the state for users of the new equipment.

Tailgate party on club agenda

The UCF Women's Club will hold a tailgate party this Saturday before the UCF-Miles College game. Festivities will begin at 5 p.m. in the "M" lot on Rio Grande Avenue, across from the T-Bowl. Members and their families should bring their own supper; the club will provide the beverages.

The deadline for payment of club dues has been extended to Saturday. Members should contact Mary Ann Hostetler, 275-0259, before Saturday to have their names included in the club yearbook.

opponent, returns to football this year after a one-year break in their schedule. Established in 1905, Miles is affiliated with the Christian Methodist Episcopal Church. The coed institution has 1,100 students and 77 full-time faculty members.

Located in Birmingham, Ala., Miles offers BA and BS degrees, and a JD from their law school. The four-year, liberal arts college offers a wide range of study, from mathematics and English to business and social science.

Richard Arrington, the first Black mayor of Birmingham, is a Miles graduate, as is Federal Judge U.W. Clemon.

The Golden Bears, members of the SIAC conference, play Livingston, Ft. Valley State, Lane, Alabama State, Fisk, Knoxville, and Morehouse as well as UCF this season.

Game time is 7:35 this Saturday night at the T-Bowl.

Next week, the Knights make their first road trip of the season,

traveling to Savannah to play the Savannah College Tigers.

The UCF Alumni Association is sponsoring a bus to the game, leaving at 10:30 a.m. from the Administration Building. The \$25 fee covers transportation to and from the game. If you're interested in joining our alums on this trip, contact Mark Glickman (x2233) as soon as possible.

If you're planning to go to Savannah on your own, game tickets are available at the gate for \$5 (tickets for students with a college I.D. are \$3.50).

Volleyball

In other action, the volleyball team hosts seven powerful foes in this weekend's UCF Invitational. Play begins at 9 a.m. Friday and Saturday, as UCF welcomes FSU, Alabama, LSU, Miami Dade (South), S. Carolina (Spartanburg), FIU, and Miami. Tickets are available at the door (\$2 for faculty and staff).

The Lady Knights split this past

weekend's competition in the Eastern Kentucky Invitational, whipping Mt. St. Joseph (16-4, 15-8) and Indiana University at Purdue (15-5, 15-8), while dropping matches to Eastern Illinois (15-6, 5-15, 6-15) and Division I powerhouse Wayne State (12-15, 3-15).

The netters now have a 4-4 season record.

FRIDAY, OCT. 9

Movie. "The Paper Chase." Student Center Auditorium, 8:30 p.m. Admission: \$1.25.

President Colbourn and Millsaps College President George M. Harmon visited before Saturday night's contest in the Tangerine Bowl. Nearly 13,000 fans joined them in watching a tough defensive battle, with Millsaps squeaking past the Knights, 8-7. The deciding points came on a surprise two-point conversion, which fooled the Knight defense. The Miles College (Birmingham, Ala.) Golden Bears provide this week's opposition in a 7:35 p.m. battle on Saturday.

Fore! Golf driving range open daily

The golf driving range will be open for recreational use this quarter at the following times: Monday, noon-2 p.m.; Tuesday, 11 a.m.-1 p.m.; Wednesday, 4-6 p.m.; Thursday, 4-6 p.m.; Friday, noon-2 p.m.

Our inflation fighting efforts have kept the cost at 50 cents per bucket of balls and we still have our special of 10 buckets for \$4.50. Pay the Cashier's Office for as many buckets as you want—you can hit them anytime. The yellow receipt from the Cashier's Office will be exchanged for a range card at the Rec Services Office. Then simply take the card to the range during any open time and hit away.

We have clubs and tees available at no charge.

Racquetball Reservation Rules Court 1

Court 1 will be held for reservations seven days a week for one hour each—from 8 a.m. to 11 p.m. During quarter breaks and

holiday weekends, Court 1 will operate on a first come, first served basis with one hour limit.

Two names will be required to secure reservations and only one reservation per person per day will be accepted.

Reservations can only be made by calling x2391 or coming to the Rec Services Office daily starting at 1 p.m.

Reservations can be made one day in advance for regular play and two days in advance for intramural tournament play.

To insure proper utilization of the courts, ID cards must be shown on demand to use courts.

Court 2 and 3-Wall Courts

These courts operate on a first come, first served basis at all times with a one-hour time limit.

NOTE: Academic classes and group or organization requests have priority on court usage.

One-Pitch Softball Tournament

If you like softball and want a

fast-paced Saturday of double elimination tournament action, get your team together and fill out a roster by Oct. 9 at the Rec Services Office.

The tournament will be a one-day event on the three UCF fields Saturday, Oct. 11, with games starting at 9 a.m.

In a one-pitch game each batter gets only one pitch each time he is at bat. A ball results in a walk; a strike equals an out; and the batter runs the bases if a hit is fair. An average game lasts about 30 minutes.

Rec Miler Club

Rec Services is giving away T-shirts and memberships in the UCF Rec Milers Club for only 40 miles of swimming, 100 miles of running, or 400 miles of bicycling.

Sign-up at Rec Services and start putting on the miles—we'll even help you along with an incentive boosting halfway certificate when that milestone is reached.

Employment Opportunities

The University of Central Florida is an Equal Opportunity / Affirmative Action Employer.

Home design contest offers \$\$\$ prizes

Homes designed with natural climate conditions in mind is the theme of the Florida Solar Energy Center's second statewide passive design competition. Top award is \$2,000, with \$1,000 and \$500 going to the second and third place entries respectively.

Winning designs will incorporate innovative passive features appropriate for Florida such as ventilative and evaporative cooling, proper siting and landscaping for shading, earth contact for heat dissipation, or other passive cooling features.

Co-sponsors of the competition, which closes Oct. 28, are the Governor's Energy Office, the Florida Residential Design Association, and the Florida Association of Realtors.

Contest details may be obtained from Vicki Green at SUNCOM 364-1011.

The Division of University Personnel Services lists the following available positions at UCF. They are listed by job title, department, minimum qualifications, annual salary range, bi-weekly salary, and closing date for applications. It is the responsibility of the applicant to successfully complete any required performance and/or written exams prior to being considered for a specific job opening. Tests are administered by appointment only, on a limited but continuous basis. If you are unable to schedule an exam for a current vacancy before the posted closing date, we encourage you to proceed with the exam so that you will be eligible for the next position in that class which becomes available. All test scores are valid for four years. For information on any required exams, as well as further details on these positions, contact Personnel at x2771. A listing of available faculty positions within the SUS is available on request at the receptionist's desk (ADM 230).
